

'Catch a wave and you're sitting on top of the world!'

Brian Wilson - 1963

GOOD VIBRATIONS! is an exciting new theatre show that celebrates the music of The Beach Boys - the California surfing band that became rock legends.

The Beach Boys smashed their way into the world pop charts in the early sixties and were as influential and significant as the Beatles in developing rock 'n' pop during an era of post-war depression.

The band's unique, harmonised singing style is still synonymous today with surfing, youthful independence and the heady days of summer.

This new production captures the excitement of the period in the sixties when The Beach Boys first exploded on the music scene on both sides of the Atlantic, with classic hits such as *Surfin' USA*, *I Get Around*, *Help Me Rhonda*, *California Girls*, *Barbara Ann*, *Sloop John B* and *God Only Knows*, and follows their musical career as they established themselves as one of the most influential pop bands of all time.

GOOD VIBRATIONS! is imaginatively staged using projected images and newsreel footage to create the mood and atmosphere of the time, providing a perfect backdrop for the five musicians and singers as they faithfully recreate The Beach Boys' unique, five-part harmonised singing style and retell this fascinating story.
